Secretary

HISTORY OF THE DUROC-JERSEY SWINE

It seems to be well authenticated that the exact origin or early history of the Red Hog, now recorded as Duroc-Jerseys, is not positively known. Many are of the opinion that they are purely American bred, while we have gathered much information pointing toward stock that was imported at an early date, of which we will make mention later on in this work.

It is a fact now generally conceded by all who are interested in this popular breed of swine, that there were two families of them, some years ago, one known as Jersey Reds and the other as Durocs.

JERSEY REDS.

The name Jersey Reds was probably given to this family by Joseph B. Lyman, about thirty-eight years ago, who at that time resided in New Jersey, and was the Agricultural Editor of the New York Tribune. Previous to this period they had been called Red Hogs. Mr. Lippincott, of New Jersey, was the first person to advertise these hogs as Jersey Reds.

We find in Clark Petit's History of Jersey Reds, that in the year of 1832, there was a pair of Red Pigs shipped from Spain to Salem, New Jersey, and he says "that their unique color at once rendered them objects of special interest in a locality long noted for successful swine breeders and feeders, among whom had long existed a great spirit of rivalry, as to whom should annually win the honor of raising the best lot of hogs, making the greatest average weight at different ages, for which leading Philadelphia butchers paid advanced price." It was soon noticed that the offspring of the Reds universally proved to be quick, profitable feeders almost invariably outweighing those of other breeds at like ages. Much of the superiority undoubtedly arose from their pre-eminent constitutional vigor and consequent capacity to properly assimilate their food.

The hogs bred in New Jersey attained great size, as will appear from the following weights made at different ages:

30 hogs, 22 months old, averaged	686	pounds, dressed.
18 hogs, 22 months old, averaged	734	pounds, dressed.
23 hogs, 20 months old, averaged	639½	pounds, dressed.
34 hogs, 17 months old, averaged	565	pounds, dressed.
51 hogs, 17 months old, averaged	520	pounds, dressed.
17 hogs, months old, averaged	862	pounds, dressed.
20 hogs, ... averaged	862	pounds, dressed.
20 hogs, ... averaged	882	pounds, dressed.
25 pigs, 8 months old, averaged	413	pounds, dressed.
16 pigs, 7 months old, averaged	278	pounds, dressed.
20 pigs, 6½ months old, averaged	280	pounds, dressed.

This list could be much extended, but we deem this sufficient to show an idea of the size the Jersey Reds attained and the feeding qualities they possessed.

Twenty-four years ago, old men in Burlington and adjoining counties, New Jersey, could not remember a time when there were not Red Pigs, neither could

they tell where they came from. Mr. Brown, of Windsor, N. J., said he had seen them bred with uniformity of great size fifty years ago.

DUROCS.

In giving the history of this family of Red Hogs, we have no better authority than is given in Vol. 1 of our records and which is substantially as follows:

The Duroc family of Red Hogs were so called by Isaac Frink, a prominent farmer living in the town of Milton, Saratoga County, N. Y. In the spring of 1832, Mr. Frink took a mare to the noted stallion, Duroc, then owned by Harry Kelsey, in the town of Florida, Montgomery County, N. Y., about 25 miles away. There he saw a litter of ten Red Pigs, the production of a pair of Red Pigs brought the year before by Mr. Kelsey, from Oyster Bay, Queens County, N. Y., or imported by him from England. He moved from Oyster Bay to Florida. In regard to the importation of the pigs, the history is not authentic, although Mr. Kelsey told Mr. Frink that they were imported, but the term imported may have been improperly used, as is often the case, even at this late date.

In searching history we find that the produce of these pigs was much sought after, and assumed the name after Mr. Kelsey's famous horse, "Duroc." They spread all through the New England States, and became very popular on account of their great qualities, which we shall hereafter discuss.

In 1830, Wm. Ensign, of Wilbur's Basin, in the town of Stillwater, Saratoga County, N. Y., brought a pair of Red Pigs from Connecticut and the next year he got a few more from the same place. He bred and sold them far and near. Saratoga County was a lively "pork district" in those days, and great interest was taken in the breeding of hogs. The Frink and Ensign families of Red Hogs were crossed and the breed established. They have been bred ever since, with more or less care and effort at keeping them thoroughbred, but no fixed type or standard was followed (except individual ones). These hogs, according to what information we can gather, possessed most of the characteristics of the Jersey Red family, except they were not so large and were rather finer boned, and no doubt were quite profitable feeders and producers of pork.

Ex-President Thos. Bennett, of Rossville, Ill., furnishes us with some reliable evidence, which comes through a correspondence with the Hon. Cassius M. Clay, of White Hall, Ky. The honorable gentleman says: "The Spanish Red Hogs were imported by Hon. James B. Clay, from Spain or Portugal, when minister to Lisbon, under Zachary Taylor in 1850. He gave me a pair of pigs the progeny of which I widely distributed, they being such very fine hogs, easily fattened, and the best hog known at that time. Being such noted hogs, it is no wonder they found their way to New York, New Jersey and all eastern and southeastern states."

It is not saying too much when we (the Red Hog breeders) say that they were the foundation stock of that most popular breed of swine, "Poland-Chinas." The Hon. L. N. Bonham, in one of his histories of said breed, in searching to find out how they came to be named "Poland-Chinas," says that "there was an old Polander who had a herd of very fine hogs, said hogs were the produce from a China sow and a Jersey Red boar. So admired were they, and so noted did they become, that they were named after the breeder (Polander), and the sow (China), hence the name Poland-China. It is a fact that the Poland-Chinas, years ago, had red or sandy spots on them, and not very small ones either, and even at the present time some of the

best pedigreed Chinas breed sandy spots." Mr. Bennett says: "In the fall of 1889, I went to see one of the best herd of Poland-Chinas in Illinois, and there saw a boar good enough for anyone. He was bred in Ohio and bought at a big price. As I was looking him over, the proprietor said: 'There is only one fault with that hog.' 'What is that?' I asked, and in reply he said: 'Some of his pigs have sandy spots on them.' This is no doubt due to the fact that, after years of careful breeding, the old characteristics will continue to crop out."

The general appearance of Duroc-Jersey swine has been greatly improved of recent years, but in accomplishing this improvement we have not sacrificed any of the characteristics which made our breed so popular. We still think they are the most prolific of all breeds, which statement is substantiated by a report from one of the leading Experiment stations for 1912 when their 13 Duroc-Jersey sows farrowed 132 pigs and raised 101, their 12 Berkshire sows farrowed 103 pigs, raising 82, and 6 Poland-China sows farrowed 43 pigs and raised 29. We think it is safe to estimate that the Duroc-Jersey litters will average 10 pigs.

The pigs are strong at birth, and the sows and pigs very seldom need any attention at that time. They almost invariably impart to their offspring their wonderful prolific breeding qualities, are good quiet mothers, supplied with a generous flow of milk, raise large even litters, and other breeds when crossed with them are greatly improved in vigor as breeders and feeders.

Below we give some extracts from a test at the Experiment Station, of the Agricultural College at Michigan.

The breeds represented were the Duroc-Jersey, the Berkshire and the Poland-China, two of each and all barrows.

The pigs were weighed every fourteen days during the experiment and the gains or losses noted and compared with the food for the period, viz.: from July 16, 1889, to January 31, 1890—168 days.

It was seen that the two Duroc-Jerseys gained in weight from the beginning. Though as fleshy as any specimens, they were still making excellent gains and were feeding well at time of slaughter. Their average gain was 36.25 pounds per period, or 2.59 pounds per day, secured at a cost of 4.65 pounds of grain for each pound of gain in live weight.

The average gain made by the two Berkshires was 29.16 pounds per period, or 2.11 pounds per day secured at a cost of 5.22 pounds of feed for each pound of gain.

The average gain per period of the Poland-Chinas was 25.91 or 1.85 pounds per day, secured at cost of 5.87 pounds of feed for one pound of gain.

The meat of the different breeds was cooked and tested, and it was the unanimous opinion of those who ate of the meat that that from the pigs making the best gains at the time of slaughter was the most tender and juicy, the sweetest and best. This was the pork of the Duroc-Jersey.

In competition with other breeds in the show ring in a very large majority of cases, the Duroc has come off the winner. Notably at the Illinois State Fair, twice within the past three years a pair of Durocs has won the premium offered by a well-known wagon company, all breeds being in the contest.

At the nearest calculation 75 per cent of the hogs reaching the principal hog centers the "red-blood," that is, are Durocs or Duroc blood predominates.

More than 75 per cent of the public swine sales are of Durocs, which shows the spirit of enterprise that is backing up the breed.

No breed of swine has been brought to its present perfection, in so short a time as the Duroc, and no hog is as popular with the breeder, the feeder or the packer as is the Red Hog.

Do you want the kind that grows right and sells right? Then breed the Durocs.

MINUTES OF MEETING OF BOARD OF DIRECTORS OF NATIONAL DUROC-JERSEY RECORD ASSOCIATION

Peoria, Ill., June 4, 1913.

Meeting called to order by President Baxter, who requested the Secretary to read the call of the meeting.

Members present were J. Young Caldwell, H. Smith, W. E. Williams and John Clatterbuck.

The Homestead Company then presented to the Board of Directors their proposed change in the present printing contract of the herd books, which is as follows:

THIS CONTRACT, made this 4th day of June, A. D. 1913, by and between the Homestead Company, a corporation of the state of Iowa, located in the city of Des Moines, in said state, hereinafter designated as party of the first part, and the NATIONAL DUROC-JERSEY RECORD ASSOCIATION, a corporation of the state of Illinois, with its offices in the city of Peoria, hereinafter designated as party of the second part, is supplemental to a certain written contract entered into between the parties hereto on the 31st day of December, 1912, and as of date January 1, 1913, and

WITNESSETH: That commencing with Volume 44 of the National Duroc-Jersey Record Book, the portion thereof relating to pedigrees shall be printed in the form and manner as shown by the attached sample page, which attached sample page is made a part hereof and identified by the signatures of the secretaries of the parties hereto.

Commencing with Volume 44, the party of the second part shall pay to the party of the first part the sum of one and eighty-seven-hundredths (\$1.87) dollars per page for the first one thousand (1,000) copies of said book. The cost of additional copies shall be the same as provided in the original contract.

The original contract is in no way changed except as herein specifically stated.

HOMESTEAD COMPANY,
By Dante M. Pierce, Sec'y.
NATIONAL DUROC-JERSEY RECORD ASSOCIATION,
By Ed. A. Baxter, Pres.

On motion by Mr. Smith and seconded by Mr. Caldwell, "That the proposition presented by the Homestead Company for change in printing contract of herd books be accepted" was carried by the unanimous vote of the members present.

On motion by Mr. Williams and seconded by Mr. Clatterbuck, "That bills for judging of Prof. Mumford and Wyman J. Lovejoy at recent International not be paid" was carried by the unanimous vote of the Board present.

It was the order of the Board of Directors that the Secretary present, with the compliments of this Association, to the Department of Agriculture of Argentine Republic, one share of capital stock of this Association.

On motion by Mr. Smith and seconded by Mr. Caldwell, the Secretary was instructed to notify W. C. Harman to furnish pedigree eligible for record to Omer Foster for pedigree of boar, "Prince Duroc 2nd," and that Mr. Harman is barred from the use of the Records of the National Duroc-Jersey Record Association until the pedigree is furnished, which was carried by the unanimous vote of the Board present.

On motion by Mr. Caldwell and seconded by Mr. Williams the Secretary was instructed to bar from the use of this Record J. P. Cudahy, if so recommended by Mr. John Clatterbuck, who is investigating charges that Mr. Cudahy sold to Mr. E. A. Trump sows for which he did not furnish a certificate of

breeding or record number of boar to which the sows were bred, was carried by the unanimous vote of the Board present.

Mr. C. F. Burke, E. Z. Russell, Wm. Reed, Tom Frazier and R. L. Comer were recommended for judges of Duroc shows for this season.

On motion by Mr. Williams and seconded by Mr. Clatterbuck, the Secretary was instructed to purchase of Jacquin & Co. three sections No. W S 21764 C 1, one No. 17 top, one No. 17 low-base steel filing case for \$63.23 and one section Art Metal No. 713 Bill File with locks for \$54.00, was carried by the unanimous vote of the Board present.

On motion by Mr. Smith and seconded by Mr. Clatterbuck, "The Treasurer is instructed to loan \$6,000.00 of our funds at not less than 5½% interest on first-mortgage loans on farm lands with the approval of the President. Lands on which such loans are to be made are to be selected by some member of the Board of Directors, the President or Treasurer. Carried by the unanimous vote of the Board present.

On motion by Mr. Clatterbuck and seconded by Mr. Williams, the Secretary was instructed to purchase premium ribbons of Bastin Bros. according to proposition submitted by them. Carried by the unanimous vote of the Board present.

On motion by Mr. Caldwell and seconded by Mr. Smith, the Secretary was instructed to purchase twenty-five loving cups of Younglove & Singer, according to the sample submitted by them and selected by the Board. Carried by the unanimous vote of the Board present.

On motion by Mr. Williams and seconded by Mr. Clatterbuck, that the Secretary be allowed not to exceed \$1,800.00 for clerk hire from June 1st to December 1st, was carried by the unanimous vote of the Board present.

On motion by Mr. Caldwell and seconded by Mr. Smith, that the Secretary attend the Colorado, Kansas and Oklahoma State Fairs this fall, it was carried by the unanimous vote of the Board present.

On motion by Mr. Caldwell and seconded by Mr. Smith, "We will appropriate \$500.00 for premiums on Duroc-Jersey breeding classes for the Panama-Pacific Exposition, providing the Panama-Pacific Exposition at least duplicates this amount for premiums, providing the American Duroc-Jersey Record Association makes an appropriation of the same amount and under the same conditions. Of the \$1,000.00 appropriated by the two Record Associations, \$250.00 of this amount shall be offered as premiums to exhibitors from west of the Rocky Mountains and \$750.00 of the \$1,000.00 offered in the open classes," it was carried by the unanimous vote of the Board of Directors present.

No further business appearing before the Board, they adjourned subject to the call of the President.

Ed. A. Baxter, Pres.
J. R. Pfander, Sec'y.
